- Location/Quality/Memory Technique
- Nociceptor Stimulation Blocking Technique for pain relief
- Tooth pain relief and working with sleep issues
- Injury recall Technique ..... and more!

*I would highly recommend any seminar by Drs Sheldon Deal and Wally Schmitt. I just purchased the Advanced Kinesiology Skills Workshop DVD's and as a Certified Applied Kinesiologist, what has always been a struggle to master some of the techniques is now simplified in this presentation. I am only finishing the second DVD and can't wait to finish the seminar. Just what I learned on the first DVD was worth the purchase. It has re-inspired me to get the books out again and be a student.*

Michael Fritz, D.C., N.D.
